

ETHIOPIAN FACTSHEET

March, 2024

OVER VIEW

Beginning humbly, Ethiopian Airlines (Ethiopian) has come along close to 78 years of successful journey. Of course, Ethiopian is ageing beautifully. Ethiopian is now the leading Aviation Group in Africa. Over the decades, the airline has established itself as the leader in all facets of the aviation business: technology, leadership, network expansion and aviation mentoring.

Ethiopian started its operation with five C-47 aircraft operating its debut flight to Cairo via Asmara on April 8, 1946. Ever since, it has been growing in leaps and bounds and continued to introduce cutting-edge aviation technology and systems. As aviation technology leader, Ethiopian was a pioneer in ushering in new aviation technology into Africa including the first jet airplane as well as the first B767, B777-200LR, B787 Dreamliner, and 787-9 in the continent. Ethiopian also led the way in operating Africa's first Airbus A350 XWB. Currently, the airline has a fleet of more than 152 modern aircraft with an average fleet age of less than seven years; it has also more than 100 ultramodern aircraft on order.

Living its motto of Bringing Africa Together and Beyond, Ethiopian has created Africa-wide and transcontinental air connectivity networks linking its main hub, Addis Ababa to the rest of the world. The airline serves 136 international passenger and cargo destinations, including 63 African cities, with daily and multiple flights with a minimum layover in Addis. As a veteran carrier serving a vast intra-African network, Ethiopian flies to more destinations in the continent than any other airline.

In December 2011, Ethiopian took a giant leap forward in its successful journey by joining Star Alliance, the world's largest airline network. Over the years, the multi-award-winning airline has received countless coveted accolades and recognitions for its excellence including Skytrax's Four-Star Airline Certification, Best Airline in Africa title for several years in a row, and Overall Excellence for Outstanding Crisis Leadership Award to mention but a few. Building on its continuous success, Ethiopian has achieved an average growth rate of 25 percent in the past decade. Having met its 15-year strategic plan, Vision 2025, ahead of time, Ethiopian has charted out a more ambitious strategic roadmap called Vision 2035 to further bolster its continuous growth.

Ethiopian የኢትዮጵያ Aviation Academy

PIONEER OF AVIATION EXCELLENCE

Ethiopian Aviation University (EAU)

Ethiopian Aviation University (EAU) Ethiopian Aviation Academy (EAA) is the largest and most modern aviation academy in Africa recognized as ICAO Regional Training Center of Excellence. To train aviation professionals from classrooms to full flight simulator training, EAA offers leading industry standard training for pilots, aircraft technicians, cabin attendants and ground services staff both for initial and recurrent students. The Leadership & Career Development Centre is also training thousands in Management and Leadership Skills.

Our cabin crew training simulates real-time scenarios with training aircraft designed for emergency drills and service trainings. Our pilot training school uses light aircraft for its basic training with dedicated simulators. Full flight simulators of all fleets Ethiopian operate are available for flight training. Virtual Maintenance Trainers (VMTs) and various workshops feature our aircraft maintenance training. Beyond these, our academy develops standard training packages including e-learning and virtual classroom trainings. Trainee services include a trainee's cafeteria, dormitories, an administration complex and a plush new auditorium. The academy plans to take in 4,000 students a year in its training programs.

In line with the rapid growth of Ethiopian Airlines Group, Ethiopian Aviation Academy has been upgraded to Ethiopian Aviation University, which will enable it to provide a broader range of educational programs and increase the level of expertise in the Aviation Industry. The University has been accredited by the Ethiopian Higher Education Relevance and Quality Agency (HERQA), to offer undergraduate and graduate degree programs in various aviation and hospitality fields.

Full Flight Simulator

These are the most technologically advanced aircraft as a sign of the company's commitment to leading Africa's aviation industry. We have simulators for all the aircraft we fly; A350, B787, B777, B767/B757, B737 MAX & NG and Q400.

Ethiopian የኢትዮጵያ

Maintenance Repair & Overhaul

Ethiopian Maintenance Repair and Overhaul (MRO)

The scale of the MRO operation at Ethiopian is mesmerizing. It is the largest MRO service in Africa and serves majorly Africa and the Middle East. The facility is fully equipped with state-of-the-art paint and maintenance Hangars, Engine and Component Maintenance workshops with all tools and equipment required to maintain aircraft, engines, and components. Even if you have flown numerous times, you might not have fully appreciated the size of the largest civil jet engines until you are up close with these huge engines as you walk through the engine maintenance workshop. Established in 1957, Ethiopian MRO provides base maintenance service at its base in Addis Ababa and Line Maintenance services at stations where Ethiopian flies and extends the services to other operators. The facility is certified by the ETCAA, FAA, EASA and more than 20 countries CAA. Ethiopian MRO offers world-class services to its customers and helps make Ethiopian one of the most dependable and safest airlines in the world.

ETHIOPIAN SKYTECNO AND WIRE HARNESS MANUFACTURING

Ethiopian Sky Technologies is manufacturing and delivering the aerospace products in accordance with the terms of the Agreement and the stringent requirements of the Aerospace Industry. In addition to building the aerospace manufacturing capability of Ethiopian Airlines, the partnership also enhances Ethiopia's manufacturing infrastructure and international trade connections.

ETHIOPIAN GROUND SERVICES

Ethiopian Ground Service is the leading provider of ground handling services in HAAB. We currently handle all Ethiopian flights, over 6 scheduled flights, other airline Cargo flights, and several non-scheduled airline operations. With a vision to expand to African airports through joint venture partnerships and acquisitions by 2025, Ethiopian Ground Services covers all aspects of ground services necessary to handle the arrival and departure processes of airlines in Addis Ababa and domestic airports. We have modern ground support equipment and highly trained and committed staff. Our customer airlines handling and business development section strategy is to emphasize the quality of its professionals on Ground Handling services through adequate training and market development with all our network.

Ethiopian Ground Service is the most organized Ground Handling business unit in terms of human and equipment resources, striving to attain seamless operational excellence at the HUB. Ethiopian Ground Services is a reliable and efficient provider of comprehensive ground handling services. The services include all ground handling services including VIP flight handling, and we are committed to delivering quality service that meets our customers' needs and expectations. We strive to always provide a satisfying experience to all our clients. Per Vision 2025, Ethiopian Ground Services aims to be the most efficient service provider in Africa with the highest standard of safety and quality service. Currently, Ethiopian Ground Services supports and satisfies the hub operation in Addis Ababa and plans to expand its services to African airports to meet the fast-growing demand for ground handling services. Our objective is to provide high-quality ground-handling Services that meet and exceed international standards ensuring efficiency and excellence in service delivery. As a Ground Handling company, we are tasked mainly to support the Ground Operations of Airlines that have made Ethiopia as one of their destinations.
