OVER VIEW

Despite its humble beginnings, Ethiopian Airlines (Ethiopian) has had more than 75 years of successful journey which made it the leading Aviation Group in Africa. Of course, Ethiopian is ageing beautifully. Over the decades, the airline has established itself as the leader in all facets of the aviation business: technology leadership, network expansion and aviation mentoring.

Ethiopian started its operation with five C-47 aircrafts back in 1946, and made its debut flight to Cairo via Asmara. Ever since, it has been growing in leaps and bounds, and continued to introduce cutting-edge aviation technology and systems. As aviation technology leader, Ethiopian was a pioneer in ushering in new aviation technology into Africa including the first jet airplane as well as the first B767, B777-200LR, B787 Dreamliner, and 787-9 in the continent. Ethiopian also led the way in operating Africa's first Airbus A350 XWB. Currently, the airline has a fleet of more than 147 modern aircraft with average fleet age of five years; it also has 26 ultramodern aircraft on order. Living its motto of Bringing Africa Together and Beyond, Ethiopian has created Africa-wide and transcontinental air connectivity networks linking its main hub Addis Ababa to the rest of the world. The airline serves 133 international passenger and cargo destinations, including 63 African cities, with daily and multiple flights with a minimum layover in Addis. As a veteran carrier serving a vast intra-African network, Ethiopian flies to more destinations in the continent than any other airline.

Having met its 15-year strategic plan, Vision 2025, ahead of time, Ethiopian has charted out a more ambitious strategic roadmap called Vision 2035 to further bolster its continuous growth. In December 2011, Ethiopian took a giant leap forward in its successful journey by joining Star Alliance, the world's largest airline network. Over the years, the multi-award-winning airline has received countless coveted accolades and recognitions for its excellence, including Skytrax's Four-Star Airline Certification and Best Airline in Africa title for 5 consecutive years, and Overall Excellence for Outstanding Crisis Leadership Award in 2020 to mention but a few. Building on its continuous success, Ethiopian has achieved an average growth rate of 25 percent in the seven years prior to the COVID-19 pandemic.

Ethiopian የኢትዮጵያ Aviation Academy

PIONEER OF AVIATION EXCELLENCE

Ethiopian Aviation University (EAU)

Ethiopian Aviation Academy (EAA) is the largest and most modern aviation academy in Africa recognized as ICAO Regional Training Center of Excellence. To train aviation professionals from classrooms to full flight simulator training, EAA offers leading industry standard training for pilots, aircraft technicians, cabin attendants and ground services staff both for initial and recurrent students. The Leadership & Career Development Center is also training thousands in Management and Leadership Skills. Our cabin crew training simulates real-time scenarios with training aircraft designed for emergency drills and service trainings. Our pilot training school uses light aircraft for its basic training with dedicated simulators. Full flight simulators of all fleets Ethiopian operates are available for flight training. Virtual Maintenance Trainers (VMTs) and various workshops feature our aircraft maintenance training. Beyond these, our academy develops standard training packages including e-learning and virtual classroom trainings. Trainee services include a trainee's cafeteria, dormitories, an administration complex and a plush new auditorium. The academy plans to take in 4,000 students a year in its training programs.

In line with the rapid growth of Ethiopian Airlines Group, Ethiopian Aviation Academy has been upgraded to Ethiopian Aviation University, which will enable it to provide a broader range of educational programs and increase the level of expertise in the Aviation Industry. The University has been accredited by the Ethiopian Higher Education Relevance and Quality Agency (HERQA), to offer undergraduate and graduate degree programs in various aviation and hospitality fields.

Full Flight Simulator

These are the most technologically advanced aircraft as a sign of the company's commitment to leading Africa's aviation industry. We have simulators for all the aircraft we fly; A350, B787, B777, B767/B757, B737 and Q400.

Maintenance Repair & Overhaul

Ethiopian የኢትዮጵያ
Maintenance Repair & Overhaul

Ethiopian Maintenance Repair and Overhaul (MRO)

The scale of the MRO operation at Ethiopian is mesmerizing. It is the largest MRO service in Africa and serves Africa and the Middle East. The facility is fully equipped with Hangars, Engine and Component Maintenance workshops with all equipment needed to repair/overhaul aircraft, engines and components. Even if you have flown numerous times, you might not have fully appreciated the size of the largest civil jet engines until you are up close with these huge engines as you walk through the workshop. Established in 1957, Ethiopian MRO provides Line Maintenance services at stations where Ethiopian flies and extends the services to other operators. The facility is fully certified by the ETCAA, FAA and EASA. Ethiopian MRO offers world-class services to its customers and helps make Ethiopian one of the most dependable and safest airlines in the world.

Ethiopian የኢትዮጵያ

Cargo & Logistics Services

Ethiopian Cargo & Logistics Services

Ethiopian Cargo and Logistics services is the largest cargo network operator in Africa and has won multiple global awards including Best Cargo Airline in Africa by Air Cargo News for 3 Years in a Row. Currently with our 9 - Boeing 777-200F, 2 - Boeing 767-300F and 4 - Boeing 737-800F dedicated freighters and 131 passenger aircrafts, we serve 67 cargo dedicated and 130+ passenger destinations in Africa, the Middle East, Asia, Europe and the Americas with an average daily uplift of over 2000 tons of which over 611 tons is transported in a belly hold capacity. With its well experienced and dedicated human capital, it has achieved the highest aircraft daily utilization over 17 hours on its B777F's. With a modern warehouse of one million tons annual storage capacity, fully automated with state-of-the-art technologies, Ethiopian Cargo is providing its service globally. Through a revision of its vision 2025, Ethiopian Cargo and Logistics Services is planning to grow its cargo network to 90 destinations and operate 37 freighter aircrafts by 2035.

Ethiopian የኢትዮጵያ Catering

Ethiopian Catering

Ethiopian In-Flight catering facility has a capacity to produce 100,000 meals a day. The facilities are modern and fully equipped to deal with high demand. Good food is important to our discerning customers. Ethiopian In-Flight Catering is dedicated to delivering high-quality service and part of that is delivering high quality dining and beverage options. The new menus give customers the choice of local Injera, a vegan option, and a variety of world cuisines including Chinese, Halal, Kosher and Indian to Italian.

Ethiopian የኢትዮጵያ SKYLIGHT HOTEL

Ethiopian Skylight Hotel is Ethiopian Airlines Group's ultra-luxurious Five-Star hotel. Phase one of the hotel was inaugurated on January 27, 2019 with a total of 373 stunning rooms with relaxing and superb designs that are suitable for both corporate and leisure travelers. It has an added feature for Presidential Suits, Executive Suits, Apartments, Persons with limited mobility. With the completion of phase two of the hotel on January 2023, the total room capacity grew to 1024, making it the largest hotel in the continent co-located in one area.

It has also launched an ultra-luxurious hotel within the Addis Ababa Bole International Airport Departure Terminal 2 (Ethiopian Skylight In-Terminal Hotel) which is suitable for all air travelers transiting through Addis Ababa Bole International Airport with a capacity of 97 rooms: having conference rooms, restaurant, gym and other facilities.

Ethiopian Airport Expansion

Inaugurated on 27 Jan 2019, Addis Ababa Bole International Airport has the capacity to handle 22 million passengers per annum.
