PIONEER OF AVIATION EXCELLENCE

Cabin Crew Training School

The Cabin Crew Training School provides basic and recurrent training in areas of Cabin Safety, Emergency Response and In-Flight Services.

The school uses modern Cabin Emergency Evacuation Trainer (CEET), motion & static mock-ups of both wide & narrow body aircrafts to train on Safety and Service. It also uses extended door trainers and own swimming pool for its training.

Basic Training Duration: 60 days
Recurrent Crew Training includes

- ✈ Hands on Drill on Emergency Equipment
- ✈ Live Fire Fighting Exercise
- ✈ Crew Resource Management
- ✈ Dangerous Goods Regulation
